## MOVING LIGHT YEARS AHEAD

Tamsin S

---

"OPENINGS"  
touches the source  
of wisdom within  
each of us.

---

I WROTE THIS AT THE TIME: "Since Openings I have stopped struggling. Life before seemed so difficult – a rough and hard road to follow. I suppose I adopted a battler mentality to get along. I often felt at odds with the world and with myself and the two didn't fit very comfortably together. Now my life is different. It ebbs and it flows. There are still obstacles and challenges I meet on the way but my perceptions have changed. Now I know that I am fully supported by LIFE and travelling the road has been much smoother. I know I am moving forward".

Thirteen years later, I can say that my experience of Openings has had a profound and positive impact on my life. In this single training I evolved light years in my spiritual growth. I feel truly blessed by the gift of Openings and the smart choice I made to just 'go for it'. I have never looked back and I am still walking this path. Using the spiritual tools I accessed in Openings.

During my Openings, I had a very deep and real experience of myself as the source of pure love, completely unified and connected to all things. I got a greater understanding of the truth of who I really am. It basically turned my view of the world upside down and inside out – confusing at first, but eventually transforming. It affected my life on lots of different levels and continues to be an ongoing process for me as I learn to live with and express the essence of my true nature and higher Self.
